SEOC - VHA Office of Community Care----------

VHA Office of Community Care - Standardized Episode of Care
Skilled Home Health Care Bundled, 120 Days

CAT-SEOC CoC: SKILLED HOME HEALTH CARE
SEOC ID: NIC_SKILLED HOME HEALTH CARE BUNDLED, 120 DAYS_1.6.4_REV
Description: This authorization covers services associated with the specialty(s) identified for this episode of care, including all medical care listed below relevant to the referred care specified on the consult/referral order.
Duration: 120 days

Procedural Overview:
NOTE: Apply this Standardized Episode of Care (SEOC) when bundled care using the (Outcome and Assessment Information Set (OASIS)/Health Insurance Prospective Payment System (HIPPS)) is applied. Bundled care refers to short-term acute intermittent in-home skilled care that would otherwise be covered by Medicare.
NOTE: Patients do not need to meet Centers for Medicare & Medicaid Services (CMS) home bound criteria and face to face requirements for these services.
NOTE: Frequency of visits as clinically necessary and determined by treatment plan.
NOTE: OASIS and treatment plan to occur per CMS regulations.
NOTE: For this Bundled SEOC, claims for rendered services should be submitted with corresponding HIPPS codes (e.g., HAEJ1)
NOTE: It is expected that a clinical review be completed and documented every 60 days to confirm care is appropriate for another certification period.
1. All home health services included in bundle listed below:
1A. Comprehensive (OASIS) evaluation for formulation of a treatment plan, to include comprehensive assessment and medication reconciliation.
1B. In-home skilled services, as clinically necessary, to potentially include the following disciplines: nursing, physical therapy, occupational therapy, speech therapy, nutritional services, social work services, home health aide, mental health and palliative skilled services.
2. Lab Processing when VA Lab location not readily available

* Please visit the VHA Storefront (https://www.va.gov/COMMUNITYCARE/providers/index.asp) for additional resources pertaining to the following:
* Pharmacy prescribing requirements and information for outpatient prescriptions
* Durable Medical Equipment (DME), Prosthetics, and Orthotics prescribing requirements and information
* Clinical Determinations and Indications (CDIs) requirements and information
* Request for Services (RFS) requirements and information
* Precertification requirements and information. This authorization is limited by precertification requirements. Services authorized on this referral may require precertification, which must be obtained prior to rendering services. Claims for precertification-required services will be denied if a precertification ID was not obtained prior to the date of service. Providers should routinely visit the Community Care Precertification Storefront Page (https://www.va.gov/COMMUNITYCARE/providers/PRCT-requirements.asp) to determine which services require precertification and to obtain precertification for those services.

Document Body

VistA Imaging - Scanned Document
INCLUDED IN THIS LIST: Alphabetical list of active outpatient prescriptions dispensed from this VA (local) and dispensed from another VA or DoD facility (remote) as well as inpatient orders (local pending and active), local clinic medications, locally documented non-VA medications, and local prescriptions that have expired or been discontinued in the past 90 days.

NOTE The display of VA prescriptions dispensed from another VA or DoD facility (remote) is limited to active outpatient prescription entries matched to National Drug File at the originating site and may not include

some items such as investigational drugs, compounds, etc.

NOT INCLUDED IN THIS LIST: Medications self-entered by the patient into personal health records (i.e. My HealtheVet) are NOT included in this list. Non-VA medications documented outside this VA, remote inpatient orders (regardless of status) and remote clinic medications are NOT included in this list. The patient and provider must always discuss medications the patient is taking, regardless of where the medication was dispensed or obtained.

PACT Nursing Intake Note

Veteran confirmed identity by stating:
Full Name and last four of social security number
Reason for visit/appointment:
Reason for visit: routine visit

Vital Signs:
Temperature: 98.7 F [37.1 C] (04/10/2026 09:58)
Pulse: 100 (04/10/2026 09:58)
Respirations: 16 (04/10/2026 09:58)
Blood Pressure: 119/87 (04/10/2026 09:58)
O2 Saturation: 97% (04/10/2026 09:58)
Height: 63 in [160.0 cm] (04/10/2026 09:58)
Weight: 235 lb [106.59 kg] (04/10/2026 09:58)

PAIN:
Are you currently experiencing pain?
Yes - DVPRS scale used to assess

Location: legs

Defense and Veterans Pain Rating Scale (DVPRS): 3 Sometimes distracts me
Pain Score: 4

Patient's acceptable pain goal: 0 No pain

Primary Pain Assessment:
Pain Type: Chronic

Describe Pain (Quality):
Musculoskeletal:
Aching, Dull, Sharp
Neurological:
Tingling

Pain Interventions:
Positioning
Other:
tylenol

Pain treatment:
Yes

Medication Review
Patient/Veteran denies changes to medications.
Fall risk
Have you fallen in the past year?
No

FRAIL ELDERLY ASSESSMENT
Assessment and Care of Vulnerable Elders (ACOVE):
FALL HISTORY *Required

Within the past 12 months, has the patient had any falls?
Patient has not had any falls in the past 12 months.
Home Hazard Screening Completed (includes: home layout, steps, rugs, handrails and lighting)
No hazards noted per patient.
Patient/family member has been instructed on individualized fall prevention measures, appropriate to their situation, according to guidance in the facility fall prevention program and has restated the information correctly.

KATZ ADL FUNCTIONAL ASSESSMENT *Required

Complete Index of ADL:

ADL Scale: 18

A high index indicates independence. A low index means dependence on others to help with activities of daily living.

1. Bathing: either sponge bath, tub bath or shower.
Receives no assistance (gets in and out of tub by self, if tub is usual means of bathing).

2. Dressing: gets clothes from closets and drawers, including under-clothes, outer garments and using fasteners (including braces if worn).
Gets clothes and dresses self without assistance.

3. Toileting: going to the "toilet room" for bowel and urine elimination; cleaning self after elimination and arranging clothes. (May use cane, walker, or wheelchair, and manage bedpan or commode, emptying same next morning).
No assistance needed.

4. Transfer:
Moves in and out of bed, or chair, without assistance (may use support object like cane or walker).

5. Continence:
Controls urination and bowel movement completely by self.

6. Feeding:
Feeds self without assistance.

LAWTON IADL FUNCTIONAL ASSESSMENT *Required

Complete Index of IADL:

IADL Scale: 8

A low score indicates dependence on others to help with daily activities. A high score indicates independent living. Range is 0 to 8.

1. Ability to use telephone
Operates telephone on own initiative; looks up and dials numbers, etc.

2. Shopping
Takes care of all shopping needs independently.

3. Food Preparation
Plans, prepares and serves adequate meals independently.

4. Housekeeping
Maintains house alone or with occasional assistance (e.g. heavy work domestic help).

5. Laundry
Does personal laundry completely.

6. Mode of Transportation
Travels independently on public transportation or drives own car.

7. Responsibility for own medications
Is responsible for taking medication in correct dosages at correct time.

8. Ability to Handle Finances
Manages financial matters independently (budgets, writes checks, goes to bank).

URINARY INCONTINENCE SCREEN *Required
Has the patient experienced urinary incontinence in the past 12 months?
Patient has not experience urinary incontinence in the past 12 months.
Provider notified: Hamby, Krysta NP

Abuse Screen
ABUSE SCREEN REMINDER

Do you feel safe at home physically, emotionally, and financially?
Yes

Stress Assessment (Nursing should document the patients response to the following question):
How is your stress level today?
"My life is not perfect but not the worst, I have some stress but I can handle it"
Additional Interventions:

OBJECTIVE: 85 y/o male

Alert and Oriented
1. Time Yes
2. Person Yes
3. Place Yes

Plan:
To see provider today
Whole Health program discussed &/or education handout provided

Education provided today?
No

Clinical Reminders:
Alcohol Use Screen (AUDIT-C):
Alcohol Screen:
SCREEN FOR ALCOHOL (AUDIT-C)
An alcohol screening test (AUDIT-C) was negative (score=0).

1. How often did you have a drink containing alcohol in the past year? Consider a drink to be a 12 ounce can or bottle of regular beer, 8 ounces of malt liquor, a 5 ounce glass of table wine, or a 1.5 ounce shot of liquor (like scotch, gin, or vodka).
Never

2. How many drinks containing alcohol did you have on a typical day when you were drinking in the past year?
Response not required due to responses to other questions.

3. How often did you have six or more drinks on one occasion in the past year?
Response not required due to responses to other questions.

RSV Immunization:
Respiratory Syncytial Virus (RSV) Vaccine:

Phone/ Virtual/Telehealth Visit - Patient educated on the need for receiving Respiratory Syncytial Virus vaccine either at VA or outside facility.

Pneumococcal Vaccine:

++ This Veteran has a past pneumococcal vaccination that is recorded without a formulation/type specified.

In order to determine the correct vaccine, prior pneumococcal vaccine(s) must be reviewed and entered correctly.

If prior vaccination records cannot be confirmed, the Veteran may be considered to have unknown vaccination status and provider should determine whether revaccination is indicated. ++
Telephone/Virtual/Telehealth Visit - Patient educated on the need for receiving Pneumococcal vaccine either at VA or outside facility.

PAVE Foot Check:
Not able to perform complete foot exam today due to:
Comment: time constraints

Services Authorized

The VA Order Reason for Request is the official clinical order. This scope of services associated with the medical care for this authorization is found below. Necessary services that are not included must be requested using the Request for Services procedures. Please visit the VHA Storefront https://www.va.gov/COMMUNITYCARE/providers/index.asp for additional resources and requirements.

This authorization is limited by precertification requirements. Services authorized on this referral may require precertification, which must be obtained prior to rendering services. Claims for precertification-required services will be denied if a precertification ID was not obtained prior to the date of service. Providers should routinely visit the Community Care Precertification Storefront Page https://www.va.gov/COMMUNITYCARE/providers/PRCT-requirements.asp to determine which services require precertification and to obtain precertification for those services.

Service Requested: Skilled Home Health Care Bundled, 120 Days SEOC 1.6.4

Category of Care: SKILLED HOME HEALTH CARE

Procedural Overview - Standardized Episode of Care (SEOC)

Skilled Home Health Care Bundled, 120 Days SEOC 1.6.4 Duration: 120 Days

Description:

This authorization covers services associated with the specialty(s) identified for this episode of care, including all medical care listed below relevant to the referred care specified on the consult/referral order.

NOTE: Apply this Standardized Episode of Care (SEOC) when bundled care using the (Outcome and Assessment Information Set (OASIS)/Health Insurance Prospective Payment System (HIPPS)) is applied. Bundled care refers to short-term acute intermittent in-home skilled care that would otherwise be covered by Medicare.

NOTE: Patients do not need to meet Centers for Medicare & Medicaid Services (CMS) home bound criteria and face to face requirements for these services.

NOTE: Frequency of visits as clinically necessary and determined by treatment plan.

NOTE: OASIS and treatment plan to occur per CMS regulations.

NOTE: For this Bundled SEOC, claims for rendered services should be submitted with corresponding HIPPS codes (e.g., HAEJ1)

NOTE: It is expected that a clinical review be completed and documented every 60 days to confirm care is appropriate for another certification period.

No.	Service/Procedure	Number Of Visits Authorized
1	All home health services included in bundle listed below: 1A. Comprehensive (OASIS) evaluation for formulation of a treatment plan, to include comprehensive assessment and medication reconciliation. 1B. In-home skilled services, as clinically necessary, to potentially include the following disciplines: nursing, physical therapy, occupational therapy, speech therapy, nutritional services, social work services, home health aide, mental health and palliative skilled services.	999
2	Lab Processing when VA Lab location not readily available	999

Additional Service Information

Request for Services (RFS)
A Request for Services (RFS) is a provider-generated request for new or additional care outside the scope of the current approved referral/authorization. Provider should always submit the RFS directly to the authorizing VAMC, preferably via the HSRM portal. Providers should always submit an RFS on the same day it is determined it's needed and before delivering care, unless it is emergent care. In that case, the RFS can be submitted simultaneously.

How to Submit an RFS
VA prefers providers submit an RFS via the HSRM portal, available on the VA's website
- Go to the VA Storefront at https://www.va.gov/COMMUNITYCARE/providers/Care-Coordination.asp#RFS
  - Navigate to the link to the RFS form at the bottom of the section

Medical Records and Documents Requirements

Medical Records and documentation are required for all provider services. Providers are required to submit Medical documentation directly to the authorizing VAMC, preferably via upload to HSRM.

Billing and Other Referral Information

Submitting Claims
ANY CLAIMS RELATED TO THIS EPISODE OF CARE MUST BE SUBMITTED TO TRIWEST OR DELTA DENTAL AS APPROPRIATE AND INCLUDE THE APPROVED REFERRAL NUMBER.

Methods to submit claims:
Electronic Data Interchange (EDI):
Payer ID for Medical – TWVACCN
Payer ID for Dental – CDCA1

More information on how to submit claims can be found by visiting
https://www.va.gov/COMMUNITYCARE/revenue-ops/Veteran-Care-Claims.asp

Precertification

This authorization is limited by precertification requirements. Services authorized on this referral may require precertification, which must be obtained prior to rendering services. Claims for precertification-required services will be denied if a precertification ID was not obtained prior to the date of service. Providers should routinely visit the Community Care Precertification Storefront Page https://www.va.gov/COMMUNITYCARE/providers/PRCT-requirements.asp to determine which services require precertification and to obtain precertification for those services.

Clinical Determinations and Indications

VA Clinical Determinations and Indications (CDIs) describe standard VA health care benefits for services and procedures that community providers may recommend as necessary for a Veteran. Prior to providing care, providers should use the CDIs as a reference when determining if a Veteran meets VA clinical criteria. When additional services are requested, CDIs will be used to determine approval by a clinical reviewer. CDIs and supporting information can be found at: https://www.va.gov/COMMUNITYCARE/providers/info-CDI.asp

Medical Devices

As part of furnishing the services authorized on the approved referral, you may recommend that medical devices, adaptive equipment, or other items be provided for the treatment or rehabilitation of the Veteran's medical condition. In such instances, you must complete a Request for Services (RFS) as outlined above.
https://www.va.gov/COMMUNITYCARE/providers/Care-Coordination.asp#RFS

The RFS must (1) indicate that the condition for which the item is being prescribed is within the scope of the authorized services on the approved referral, (2) describe the item or service being prescribed with as much specificity as possible (including manufacturer and model, needed custom measurements, size), and (3) provide a brief but thorough plain-language explanation of how the item or service will serve the treatment or rehabilitation needs of the Veteran. All parts of the RFS form must be filled out completely.

VA staff will determine whether the prescribed item or service is one that VA is authorized to purchase. If the item is not something that we are authorized to purchase, VA staff will work with you to identify an alternative that will best meet the Veteran's clinical needs. In making this determination, VA staff will consider your clinical judgment and expertise and work with you to resolve outstanding issues quickly.

In the event of an urgent or emergent need, you may provide medical devices, necessary items or services prescribed to Veterans receiving care in the community for urgent or emergent conditions at the time of healthcare service delivery or soon thereafter. Urgent or emergent DME or Medical Devices may include, but are not limited to splints, crutches, canes, slings, soft collars, walkers, and manual wheelchairs. DME dispensed directly to the Veteran based on an urgent or emergent need will be paid by the CCN Third Party Administrator. Claims for these items should be submitted using the process outlined in the **Submitting Claims** section of this form.

Pharmacy

Drug Safety and Administration Requirements

- Must follow the VA National Protocol and clinical guidance for Esketamine or Ketamine administration. Ketamine treatments for mental health or for pain are not approved under a CCN referral. Prior to administration it is required the ordering and administering providers review the VA Protocol and Clinical Guidance found through the VA Formulary Search Tool available here:
- https://www.pbm.va.gov/apps/VANationalFormulary/

Must follow the VA Opioid Safety Guidelines and complete the required Opioid Safety Training found here:

- https://www.pbm.va.gov/apps/VANationalFormulary/
- https://www.va.gov/COMMUNITYCARE/providers/EDU-Training.asp

CVS Caremark is the retail pharmacy network for Veterans' immediately needed or Urgent/Emergent prescriptions.

Immediate need prescriptions:

- Must follow the VA Urgent/Emergent Formulary which can be found at http://www.pbm.va.gov/PBM/nationalformulary.asp
- Prescription can only go up to a 14-day supply. No refills of the immediate need medication may be authorized.
- Only a seven-day supply for opioids, or up to the opioid prescribing limit allowed by State—whichever is less—may be authorized.

Immediate need prescription extending past 14 days:

- The provider will need to send second prescription (beyond 14 days) to the referring VA medical facility's pharmacy for prescription fulfillment services.

Routine/maintenance prescriptions:

- Must be sent to the referring VA medical facility's pharmacy

Prescriptions needed for care within a VA paid Skilled Nursing Facility (SNF) or Community Nursing Home (CNH) are to be provided by the SNF/CNH.

If you do not have the ability to electronically submit prescriptions to pharmacies, please contact the Community Care representative at the referring VA medical facility for their pharmacy fax number. Please refer to: https://www.va.gov/COMMUNITYCARE/providers/Service-Requirements.asp for additional instructions related to prescriptions.
