## General Information

**Discharge date:** 03/31/26
**Discharge diagnosis:**
Left hip displaced intertrochanteric fracture
Bilateral hip osteoarthritis
History of enlarged ventricles
History of balance issues with multiple falls
History of vertigo
History of incontinence
**Hospital course:**
Patient is a 78-year-old female patient with a past medical history of vertigo, chronic balance issues due to enlarged ventricles that she uses a cane/walker/wheelchair to get around most days, multiple falls and incontinence who presents to the emergency department today after a fall that happened shortly prior to arrival. She presents emergency department today via EMS. Patient reports she has had more than 12 falls in the last several months. Patient reports that today she was walking around using her walker outside in her garden and fell landing on her left hip. She reports she did not hit her head. Patient denied dizziness, palpitations or chest pain prior to fall. No LOC or sudden weakness. she reports she had a glass of white wine when she was walking outside. Does not report any chest pain abdominal pain constipation or diarrhea. Patient reports she had her similar chronic balance issues that cause her to fall. She has been dealing with the balance issues for last several years.

Assessment:
Left hip displaced intertrochanteric fracture
Bilateral hip osteoarthritis
History of enlarged ventricles
History of balance issues with multiple falls
History of vertigo
History of incontinence

Plan
Continuous cardiopulmonary monitoring
Orthopedic surgery consulted, appreciate recs
- NPO at midnight, pending left hip surgery tomorrow

- Nonweightbearing left lower extremity
- Hold anticoagulants
- Fall precautions
- Post surgery rehab versus sniff

Maintenance IV fluids
Type and Screen
Pain control
Oxygen as needed to maintain saturations above 92%
Electrolyte replacement per protocol
Supportive care as needed
Reconcile home medications and continue: Patient does not take any home meds
PT/OT

Code status: DNR/DNI
Diet: NPO except meds
DVT: SCD's
GI PPX: None
Dispo: Pending surgical evaluation/intervention

Discussed with attending physician

**03/30/2026**
Patient seen and evaluated at bedside. NPO. Plan for left hip cephalomedullary nail scheduled today at 2:00 p.m.. Pain control PRNs on. Patient most likely will postoperatively need placement in rehab versus SNF.

**04/01/2026**
Pt seen and evaluated at bedside. Pt Left hip cephulmedullary nail surgery completed. Pt pain is controlled. Pt recieved dose of vancomycin post-op. Plan for aspirin 81mg BID for 6 weeks, Follouw up in 2 weeks. On day of discharge, patient had stable labs and vitals. Pt was cleared by orthopadic surgery. Pt sent out on home meds and aspirin 81mg BID for 6 weeks. Pt disposition to home w/ home PT, patient in agreement. Pt to f/u with Ortho Surg in 2 weeks, and PCP. Pt Pt was encouraged to see Neurology inpatient due to her hx of enlarged ventricles and gait dysfunction, but patient refused, but said she would consider following up in the outpt setting. Pt sent with referral and instructed to follow up with Desert Neurology. Answered any questinos or concerns appropriately.
**Consultants:** Orthopedic surgery

## Med Rec

## Med Rec

**Discharge meds:**
**Start taking the following new medications:**
ASPIRIN (ASPIRIN EC) 81 MG TAB.DR
81 MILLIGRAM ORAL TWICE DAILY
Days = 30 Qty = 60
No Refills

**General appearance:** alert, awake, oriented
**Head/Eyes:** atraumatic, normocephalic
**ENT:** moist mucosal membranes, normal ear left
**Neck:** full range of motion, non-tender
**Cardiovascular:** normal heart sounds, regular rate & rhythm
**Respiratory:** aerating well, clear to auscultation
**Abdomen:** soft, no distention
**Genitourinary:** no flank pain

**Rectal:** deferred
**Extremities:** moves all, normal capillary refill
**Musculoskeletal:** Left lower extremity is shortened and slightly externally rotated. Limited range of motion.
**Neuro/CNS:** alert, oriented X 3, normal speech
**Skin:** dry, intact
**Lymphatics:** no lymphadenopathy
**Psychiatry:** normal affect, normal judgment/insight, normal mood

## Results

**Findings/Data:**
Laboratory Tests:

| | 04/01 0949 | 04/01 0315 |

## Discharge Instructions

### PCP

**Discharge to:** Home Health wPlan of Care
**Additional Discharge Routines:** PCP Follow-Up, Consultant Follow-Up
**Diet:** Regular
**Activity:** As Tolerated
**Discharge management:** greater than 30 mins

### Follow-up Appointments

**PCP:**
**PCP:**
Rahaman,Darren A MD
**Phone:** (702)383-1961
**PCP follow up timeframe:** In 4 days
**Special instructions:**
PLEASE CALL FOR APPOINTMENT. Repeat CBC.
**Consulting provider 1:**
**Provider 1:**
Kotecki,Keith W DO
**Specialty:** Orthopaedic Surgery
**Phone:** (702)878-0393
**Consult follow up timeframe:** In 1-2 weeks
**Special instructions:**

PLEASE CALL FOR APPOINTMENT
**Consulting provider 2:**
**Provider 2:**
Veerappan,Venkatachalam X MD
**Specialty:** Neurology
**Phone:** (702)732-2600
**Follow up timeframe:** In 1-2 weeks
